

## PECB

## Become acquainted with the best practices of Project Management based on ISO 21502

## Why should you attend?

The PECB ISO 21502 Foundation presents the basic concepts and principles of project management based on the guidelines of ISO 21502. This training course helps you understand the application of integrated and individual project management practices, such as overseeing and directing a project, scope management, resources management, quality management, etc.

After completing the training course, you can sit for the exam. If you successfully pass the exam, you can apply for the "PECB Certified ISO 21502 Foundation" credential. The internationally recognized certificate demonstrates that you possess general project management competencies.
